Semi-Automatic Stretch Wrapping Machine Survey

January, 2022

Customer Information

Date: _____

Company: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____ FAX: _____

Email Address: _____

Contact Name: _____

Distributor Information

Company: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____ FAX: _____

Email Address: _____

Contact Name: _____

Model Information

Model of stretch wrapper (if known): _____

If unknown please check model(s) of interest:

- Entry level turntable model
- Medium to high volume semi-automatic turntable
- Medium to high volume platform (stand-alone) automatic turntable
- Medium to high volume semi-automatic rotary tower model
- Medium to high volume (stand-alone) automatic rotary tower

Pallet Load Information

Describe the product load: _____

How is the pallet loaded: Forklift Only Pallet Jack Only
 Electric Walkie Extended Electric Walkie

Current process rate: Loads per Hour _____ (Note: Min. 1 load/hr.)

Desired process rate: Loads per Hour _____ (Note: Min. 1 load/hr.)

Indicate the stability of the pallet load:

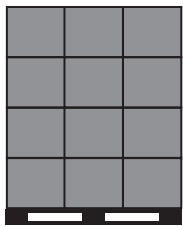

- Stable
- Unstable
- Unstable or fragile

The top layer of the load is: Full Partial Uneven

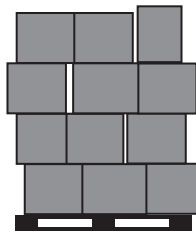

The stacking pattern is: Column Interlocked Other _____

Color of loads: Dark (Black) Shiny Light Clear Voids

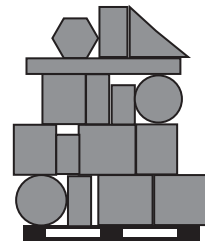

Load Type:

Type A

Type B

Type C

Pallet Load Size	Width	Length	Height	Weight	Production %
Maximum					
Average					
Minimum					

Note: If no load information is provided quote will be BUDGETARY.

Wrapping Information

Desired number of bottom wraps: _____ Desired number of top wraps: _____

Desired inches of overwrap at top of the load: _____ Desired inches of film overlap: _____

Is the pallet to be wrapped with the load: Yes No (Note: Min. wrap height of LP models = 2.5")

Desired film prestretch level: (260% Standard on most models): _____

What brand/gauge stretch film will you be using: _____

What width of stretch film will you be using: 20" 30" Other: _____

Quote Insta-Cut Film Severance: Yes No (Note: Not available in Canada)

Environment Information

Location: Enclosed Building Open-sided Building Outdoors

Other environmental conditions: _____

Are there any special environmental considerations such as:

Moisture Dust Corrosive Wash-down

Cold room Freezer Other _____

Site temperature: °F max. _____ °F min. _____ °F typical _____

Utilities Information

Is dedicated 115V/60/20A electrical service available: Yes No

Other available voltage _____ Phase _____ Amp _____

80PSI @3CFM Compressed air available (A models only): Yes No

Customer Application Specification (Provide current application times for accurate throughput calculation)

Machine Loading: _____ Seconds (Avg. 30 seconds)

Film Attachment: _____ Seconds (Avg. 15 seconds)

Film Cut-Off: _____ Seconds (Avg. 15 seconds)

Machine Un-Loading: _____ Seconds (Avg. 30 seconds)
