

# HAVE A MANUFACTURING PROBLEM?

## DARTRONICS MAY WELL BE THE SOLUTION.

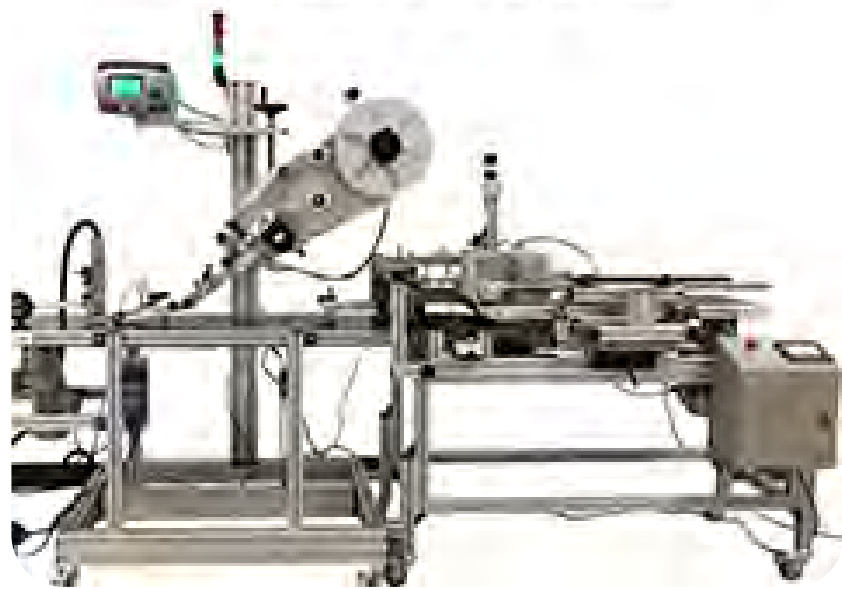

# CHOOSE DARTRONICS

## THE PACKAGING AUTOMATION SPECIALISTS

Dartronics specializes in providing the optimal packaging solution to suit any production facility requirements. As an authority in packaging systems integration, we offer the most cost-effective solution to suit both your needs and budget. From equipment to software, and ongoing support, we are your single source for end-of-line packaging, marking, and coding needs.

### **Custom Solutions**

Each solution is tailored to solve your specific problems and meet your needs. There are no "off-the-shelf" one size-fits-all answers.

### **High Quality Equipment**

Dartronics uses only the highest quality brands and products, those with proven track records of reliability and success across an extensive installed base.

### **Experience**

Dartronics has more than 25 years experience with a broad range of customers, from small businesses to Fortune 100 Companies.

### **Supplies When You Need Them**

Dartronics offers the best prices on all supplies and consumables, including ribbons that you require for your applications.

### **Professional Packaging Problem Solvers**

Dartronics will enhance and streamline your packaging lines and improve your bottom line. Show us the bottlenecks and we'll show you how to eliminate them.

### **Service & Support Around the Clock**

Dartronics' post-sale service includes a service tracking program that provides a complete history of when your equipment was repaired, along with service details.

## Dartronics offers a no-obligation evaluation of the last 100 feet of your production and packaging line.

We document the challenges and opportunities, detail where efficiencies can be gained and provide a return-on-investment analysis for any recommended improvements!
